

Summer Science & Engineering Classes

For students entering grades 6,7, 8, & 9

Monday - Friday from 9 am - 4 pm

Three Weeks - *enroll for one, two or all three!*

June 19-23 - Great Lakes & Natural Resources

Explore forests, streams, wetlands and Lake Superior. Investigate aquatic food chains, how to assess the health of the Great Lakes, and how scientists and engineers help to protect water quality in a watershed.

June 26-30 - Engineering Exploration

Explore a variety of engineering fields and the many uses of engineering in daily life! Use the engineering design process to design solutions to a variety of engineering challenges. Interact with engineers and visit labs.

July 10-14 - Technology & Mathematics

Create web maps, work with electronics, sensors, and circuits, explore Mathematica, and create artistic designs through image processing.
This course is good for all levels of prior knowledge!

**Classes meet at MTU's Great Lakes Research Center & on campus
and are taught by MTU staff and professors**

Cost: \$200 per student each week (lunch is included)

Register by Friday, June 9th

**Pay by credit card by calling MTU Cashier 487-2247
(Your space is not reserved until payment has been received.)**

To register online: 2017 Middle School Camp

Or ww.wupcenter.mtu.edu
