

After School Science & Engineering Classes

6 sessions ~ 4:00-5:30 pm
Oct. 24 - Dec. 6

Hands-on explorations taught by Michigan Tech science & engineering students at MTU's Great Lakes Research Center (GLRC).

All classes meet in 104 GLRC.

Gr. 1-2 *Making and Tinkering* WEDNESDAYS

Learning through tinkering! Explore tinkering and making activities that blend science and engineering! Create your own animal, design a hand pollinator, build your own car, make your own maze and try to blow a ball through!

Gr. 3-5 *Human Body* TUESDAYS

Explore the science behind heartbeats & exercise, the human skeleton & muscles, sense of taste, sugar & teeth, and life without a thumb! How do nutrition and healthy choices make our bodies stronger? Be an engineer and help develop a prosthetic hand!
