

# Purchase A Great Lakes Floor Map – \$400

An excellent educational tool for use with K-12 Teachers, Students & Communities

## Why?

The Great Lakes impact our lives in many ways---from drinking water, growing food, creating the weather, manufacturing products, atmospheric deposition of pollutants, transporting goods and natural resources, and global warming. The Great Lakes make up 20% of the world's freshwater and **95% of the United States' freshwater**. Everyone should know and care about the Great Lakes!

## For Whom?

Great Lakes floor maps are terrific teaching tools for K-12 schools, museums, and education centers throughout the Great Lakes region: Minnesota, Michigan, Wisconsin, Illinois, Indiana, Ohio, New York, and Pennsylvania. Anyone can order the map, and there are NO requirements for holding workshops, acting as a lending site, nor maintaining and submitting records.

## What's Included?

The **Great Lakes Floor Map** is a 9' x 12' canvas cloth upon which has been painted the five Great Lakes, and the boundaries for two countries, 8 states and 2 provinces.

The map comes in a clear plastic storage tub with:

- Map Bar Scale (1)
- Compass Rose (1)
- Laminated labels for: Great Lakes (5), Countries (2), States/Province (10), Cities/Towns (109), and River labels with attached blue yarn for each Great Lake watershed: L. Superior (9), L. Huron (8), L. Erie (6), L. Ontario (3), L. Michigan (4).
- Yarn to form watershed boundary
- Great Lakes Watershed Map (4) to identify river locations in each Great Lake watershed.

## How to Purchase?

Complete attached form. Send with payment to address on form.
