## Invasive Species Project Guidelines

### Introduction

In this project, you will be writing a 15 page children's story about an invasive species in Wisconsin. The children's story should be written for elementary students and include your own illustrations. You will be given some time in class to research the species you choose. Your story needs to follow the guidelines below, and include the answers to the following questions. Make your story entertaining and interesting to read. Our goal is to help the reader develop an awareness of your invasive species.

### Guidelines
