Isle Royale Queen IV carries passengers from Copper Harbor to Isle Royale National Park’s Rock Harbor in less than 4 hours.

Isle Royale is the largest island in Lake Superior—the largest body of freshwater by surface area in the world.
The *Ranger III* is the largest ship owned and operated by the National Park Service. In 2008 the ship will celebrate 50 years of service bringing backpackers and tourists from Houghton to Isle Royale National Park, America's least visited national park.
