An Introduction to the EDIBLE & POISONOUS MUSHROOMS of MICHIGAN

NEED AND PURPOSE

This workshop will provide opportunities for field, lecture and laboratory experience in the recognition, collection, identification, and handling of some of Michigan's abundant edible as well as poisonous mushrooms. The workshop is scheduled during the peak fall mushroom-hunting season. The experience is planned to accommodate beginners and more advanced participants alike. The workshop will include several concurrent lectures in order to accommodate the varied backgrounds and levels of participants.

EARLY BEGINNER'S FIELD WALK

A beginner's mushrooming field walk will be offered Friday from 10 am - 12 pm. All are welcome but if you consider yourself a novice mushroom person you may want to take part in this Friday morning foray.

CANCELLATIONS & REFUNDS

If you have to cancel your registration you must notify the FORD FORESTRY CENTER at (906) 524-6181 by September 5, 2005. A cancellation fee of \$20 will be withheld from your refund. Substitutions can be made at any time. Your fee will be refunded in full if class is cancelled due to insufficient enrollment.

SAF MEMBERS: This workshop qualifies participants for CFE Credit.

MSU/MTU are equal opportunity educational institutions/equal opportunity employers. Programs & materials are open to all without regard to race, color, national origin, sex, disability, age or religion. FFC891

GENERAL INFORMATION

REGISTRATION FEE: Includes the cost of instruction, education materials, three noon meals, two breakfasts and two dinners.

WHAT TO BRING: Participants will be provided with a workshop booklet and other handouts. Participants are responsible for providing their own collection materials. Cool weather, rain, and/or insects may be encountered. Participants will find it handy to bring an inexpensive knife, a rigid collecting basket, a supply of paper lunch-size sacks, pencils, a spiral-bound pocket notebook and a 10x hand lens or magnifying glass.
