Come to the Great Lakes Research Center (GLRC) on MTU’s waterfront campus for an exciting day of activities that will increase your students’ knowledge of Great Lakes science and engineering! During each half-day session, students will attend four 35-minute activities.

The Water Festival is designed to: (i) present a wide variety of STEM topics to motivate students to consider STEM college majors, (ii) introduce students to a wide variety of Great Lakes and STEM career fields; (iii) encourage Great Lakes stewardship; (iv) showcase the new MTU Great Lakes Research Center.

Lessons will span content areas and provide hands-on learning opportunities for students.

What will be offered?
- Wildlife of the Great Lakes
- Remotely-Operated Vehicles
- Non-native invaders
- Environmental monitoring with cell phones
- Low impact development
- Investigating biodiversity
- Aquaponics lab

Who are presenters?
Presenters include Michigan Tech faculty, staff, students, community organizations, government agencies, authors,

Choose one session to attend:
Morning: 8:45 - 11:30 am
Afternoon: Noon - 2:50 pm
