Presenter:

Janet Marr, Botanist, Houghton-
Keweenaw Conservation District

Good plants gone bad!

These beautiful plants may have a devastating impact on the biodiversity in the Western Upper Peninsula.

- Participate in invasive species monitoring and hands-on activities to take back to the classroom.
- Learn to identify non-native invasive plant species.
- Get lessons & resources.
- Get your students involved in helping to stop the spread.....

What to Bring:

- Water Bottle
- Backpack
- Dress for the weather – we will be outside!

Please Register by Sept. 23:
