

## Films from the *Green Film Series 2011-13* Available for 3-Week Checkout for Classroom, Meeting or Home Viewing

To borrow films, contact: Loret Roberts (482-0331 or [loret@copperisd.org](mailto:loret@copperisd.org)) at the CCISD at 809 Hecla St., Hancock.

*These films were purchased by the Lake Superior Stewardship Initiative with financial support from the Copper Country League of Women Voters (2012), Friends of the Land of Keweenaw (2011-12), and the Environmental Endowment of the Keweenaw Community Foundation (2013). Additional fees charged by distributor for public viewings.*

### **Tapped** (54 min.)

Is access to clean drinking water a basic human right, or a commodity that should be bought and sold? Examines the big business of bottled water.

### **Weather Report** (52 min.)

Takes us to places where global warming is having an immediate effect, to meet people who are early victims of the global crisis that will soon affect us all.

### **Build Green** (43 min.)

A refreshing look at environmentally-smart building materials and practices that better protect against the elements while saving money and resources.

### **Thirst** (62 min.)

Efforts by powerful corporations to commodify the world's water supplies have catalyzed community resistance to globalization in Bolivia, India and the U.S. Online study guide: <http://www.bullfrogfilms.com/guides/thirstguide.pdf>  
Available through the Michigan Tech Center for Water & Society (contact Carol Asiala [cjasiala@mtu.edu](mailto:cjasiala@mtu.edu)).

### **Blue Gold: World Water Wars** (90 min.)

This award winning documentary posits that we're moving closer to a world in which water—a seemingly plentiful natural resource—could actually incite war. Corporate giants, private investors, and corrupt governments vie for control of our dwindling supply, prompting protests, lawsuits, and revolutions. Past civilizations have collapsed from poor water management. What lies ahead? (\$150 for public screenings; contact Phil Gorn, Wonderphil Productions, LLC at 310.482.1324 or [phil@Wonderphil.biz](mailto:phil@Wonderphil.biz) to arrange.)

### **Green Fire** (56 min.)

Highlights Aldo Leopold's extraordinary career, tracing how he shaped and influenced the modern environmental movement. The film draws on Leopold's life and experiences through photographs, correspondence, archival documents, as well as historical film and full-color footage on location. The film also features commentary and insight from some of today's most recognized scholars and conservation leaders, including: three of Aldo Leopold's children, noted environmental writers, scientists, public policy leaders, business leaders, and others inspired by Leopold.

### **Carbon Nation** (82 minutes)

A documentary about climate change SOLUTIONS. Even if you doubt the severity of the impact of climate change or just don't buy it at all, this is still a compelling and relevant film that illustrates how SOLUTIONS to climate change also address other social, economic and national security issues.

### **River Planet** (29 min.)

Explores the very different environmental, cultural and social issues around how humans and wildlife interact with six major rivers on our planet.

### **Last Call at the Oasis** (108 min.)

Be it through consumption or contamination, water is becoming more scarce globally, including in the United States.

### **Switch** (98 min.)

Join energy visionary Dr. Scott Tinker as he explores the world's leading energy sites, from coal to solar, oil to biofuels, many highly restricted and never before seen on film.
