GMO OMG

7:00-9:00 pm, Thursday, May 15

LOCATION: Atrium & G002 Hesterberg Hall, MTU Forestry building

COST: FREE donations appreciated

Enjoy coffee, dessert, and facilitated discussion

Bring Your Own Mug!

GMO OMG Explores the systematic corporate takeover and potential loss of humanity's most precious and ancient inheritance: seeds, investigating how loss of seed diversity and corresponding laboratory assisted genetic alteration of food affects young children, the health of our planet, and freedom of choice everywhere. Following one family's struggle to live and eat without participating in an unhealthy, unjust, and destructive food system. Has the global food system been irrevocably hijacked, or can we take back our food, heal the planet, and live sustainably? (85 min)

Discussion facilitator: Ray Sharp, Community Planning & Preparedness, Western Upper Peninsula Health Department

Cosponsored by Lake Superior Stewardship Initiative, Michigan Tech Center for Water & Society, Keweenaw Unitarian Universalist Fellowship and Keweenaw Land Trust

Partial funding provided by the Keweenaw Community Foundation.
