Engineering & Science Majors Needed to Teach After-School Science Classes for Grades 1-8 Students

The Western U.P. Math/Science Center will hire 10 Engineering & Science Majors (junior, senior, grad) to teach After-School Science Classes for Gr. 1-8 students in schools in Houghton, Baraga, Keweenaw, Gogebic and Ontonagon Counties for Fall 2005 and Spring 2006 (6-week sessions: Oct. 10-Nov. 18; Jan. 23-March 3). To participate, you must be available from 2 - 6 pm on at least ONE day per week, M-F, and have your own transportation to schools. Some schools may be located up to 100 miles from Michigan Tech. All lessons and supplies provided.

Choose one of these After-School Classes to teach:
- Science Explorers (for Grades 1-3 and 4-6): physical science and engineering activities
- Outdoor Investigations (for Grades 1-3 & 4-6): ecology & biology activities
- Amazing Animals (for Grades 1-3): biology and life science activities
- Chemistry for Kids (for Grades 4-6): chemistry and biology activities
- Alternative Energy LEGOS (for Grades 4-6): design and build cars and other structures
- Under Your Feet (for grades 1-3): earth science activities.
- Engineering Challenges (for grades 4-6): engineering activities.
- Microscopic Exploration (for grades 4-6): microbiology activities.
- And MORE !!

**PAY:** $8.00/hour (travel outside Houghton County will be reimbursed)

**APPLICATIONS DUE:** Wednesday, Sept. 28, 2005
(Bring completed applications to 105 Dillman Hall)

**PICK-UP APPLICATIONS FROM:**
105 Dillman Hall - Western U. P. Center for Science, Math & Environmental Educ.
870 Dow - Civil & Environmental Engineering Department Office
Outside Room 133 - School of Forest Resources & Environmental Science
